

R A K E T A I N S T I T U T E

PROUDLY PRESENTS:

9 000 KM _ THE ONGOING GEOGRAPHY

Once again Raketa is returning to that place which is strange yet familiar (just as Kalibukbuk, Kiruna, Ulaanbaatar). We are ramblingly entering, stutteringly making visit after visit, collecting stories in order to come closer.

> > > > This time the place is called R E J M Y R E.

And this time we are landing with the yellow carpet:

RAKETA REJMYRE READING ROOM # REJMYRE EDITION

With books, papers, guides & maps we are dreaming our way further out into the geography - maybe we will find Rejmyre by searching further off and away - in the distance somewhere very close!

We bring texts in a foreign language, images from countries far away, stories about people who live on the other side of the ocean! And in the middle of this - questions about Venice in a light blue booklet.

Come and sit down for a while, read and turn the pages or just take in the view and drown in the geography !

Place: ENGELSKA MAGASINET, REJMYRE

time: June 27 - August 16 2009
